

ATTENTION: Northern Midlands Council

General Manager Mr Des Jennings

Date: 6th January 2020

We the undersigned are petitioning against the proposed building of a toilet block and park at the corner of Panec street and Main road Conara 7211.

Our reasons being

1. They serve no purpose to the community of Conara
2. It brings people into our town at all hours, disturbing the quiet life of our community
3. There is no shop or store here
4. It would be a burden on locals having to keep watch on anti social behaviour
5. The buses are now turning and parking on the T intersection causing congestion and partly blocking the road already in Panec street. If there were a park and toilet block it would increase the amount of traffic creating more congestion
6. Heavy combination vehicles also use this intersection, day and night to access the railway yard at the end of Main road.

1 21. 1

- 7. The plumbing from the old toilets are still at the old site, much cheaper option.
- 8. If this was to proceed, the foot paths would have to be assessed and up graded. There is inadequate street lighting on that intersection, there would be a need for more rubbish bins and collection in addition to the current ones in the park.
- 9. Local school children use the current bus shelter. Building a toilet block there will increase strangers to hang around.

We the community believe this facility is better situated at the front of the Conara park where the old toilet block originally was. An additional bus shelter, toilet block and bbq area would be better beneficial to the major bus passenger services and the travelling public. The park itself is still highly utilized as an overnight stop area for campervans and caravans. There is more room for large buses to pick up and drop off at the park. We want the existing bus shelter to remain in its present site for the local school children and college students. As parents we have had to remove rubbish, dirty nappies and clothing, vomit and urine from the bus shelter. This is from travelers using the major buses and the bus shelter, not our local children.

As a community we do not want this new proposal of a toilet block and park at the proposed site of Panec street and Main road.
